VISIONS OF CHANGE

Before I close the book, I want to share three visions I had. In January 2003, GOD showed me a vision of what my six-pointed star necklace means. He told me that up till now our work has been on the spiritual planes. But now it was time to bring Heaven to the Earth, so to speak. With that He showed me a map of the North West of America. As I watched, a light began to appear in the Tacoma area. Then the map changed by zooming out with beams of light radiating out of Tacoma and traveling to various cities in the US. Some of the cities she saw included Portland, Oregon; Cleveland, Ohio; Detroit, Michigan; New Orleans, Louisiana; Milwaukee, Wisconsin and Abilene, Texas. Then the map changed again. Zooming out again it now incorporated the entire World, with the beams of light now touching every country.

When I asked how this would happen? I was shown 13 individuals forming a body of spirit. There were beams of light radiating from their hearts and forming a shaft of light in the center, which was the ray emanating from Tacoma. It was then I was shown the formation of the foundation and was told that this was a new paradigm in which, the purpose was to lead the way in demonstrating altruism. The foundation is to touch the spirits of the prosperous to share their good fortune with those who are not so privileged.

The 13 members are totally guided by GOD, working, as a cohesive whole GOD alone would direct the appointment of each board member. Their selection will not be determined by their qualifications, although they will be eminently qualified to serve, but by their ability to answer the call and surrender themselves to GOD.

Both Craig and I wondered how the vision could become a reality. Realistically it was going to take several million dollars and everyone we had been directed to ask to participate in the formation of the foundation was certainly not in any position to bankroll the project. But after forming the foundation, I received another vision. This time it was multitudes of people wearing a button saying "I Commit to Humanity." Seeking a meaning for the vision, God told me that throughout the world different people hold a different vision of God or Divinity, which in effect diffuses the focus. If instead the Human Race could see the spark of the Divine in every human heart, even if only in potential, then they will bring that focus together and begin to build the Body of Christ.

The summer of 2003, after the foundation had been established for a few months, we were given *The Good News: An Alternate Theory* and told to make it available to everyone, by making it downloadable over the web.

Additionally, around this time, I was told about the Codes of Life. As I said the Codes show how through 7 disciplines a person's spiritual purpose can be discovered within their birth-date and name.

I had the third vision just a few months ago. The week after the fifth anniversary of 9-11, when we had just received our official status of a tax-free, public charity. It almost seemed as a dream, but it was more real. I was standing in front of a large group of people when I said, "We have to stop identifying ourselves as Christian,

Jews, Muslims, Buddhists or Taoists. This causes separation and division. We have to come up with another designation that is all inclusive.”

Later that morning, I discussed the meaning of the vision/dream with Craig. After asking for guidance, we reached the understanding that the dream/vision was calling the people of the world to identify themselves as divinely guided. Hence we understand that we are HUMAN BEINGS OF DIVINE GUIDANCE

When Craig & I asked how a person could be sure they being guided by The Divine, we were reminded of one of the pillars we were given. That is, anything that creates fear, hatred and or division is never of divine origin.

In essence, the vision is calling the people of the world to identify themselves as being divinely guided. Then the witnessing of individuals throughout the world of divine guidance will fan the divine sparks of Spirit within to brighten the light of TRUTH.
